

Franchise Information

About us

We are an experienced, dynamic, and professional franchise system, looking for franchisees that will strive to meet our high-quality standards. Our system is backed by over 25 years of our experience in the franchising and painting business.

Our goal is to create franchise businesses that provide financial rewards and the opportunities to enjoy those rewards.

About the Industry

Painting has been a recession proof business. Typically, in robust economic periods buildings are being painted to be sold or after purchase. When the economy is slow, painting is the most cost effective way to revitalize and breathe new life into any home or business without major renovation.

Our professional team has been a part of the painting franchise business for over 25 years.

From top to bottom our organization is committed to continuous development of our system and adding value for our franchisees. Our understanding of the marketplace and the daily operation of the painting industry has enabled us to build a franchise system that delivers value and lifestyle.

What our system is built on

Lifestyle

Unlike most careers, operating your own franchise gives you the opportunity to be in business for yourself. Lifestyle important for our franchisees to have a work - life balance.

Value

We have always focused on creating value for both our customers and our franchisees, including our first-rate, extensive training program.

Modern

We are committed to continuously enhance our franchise system and make ourselves aware of the trends and fluctuations in the marketplace.

Support

We provide individual and group support to franchise managers. Structured with a solid business model, our franchisees are provided with ongoing corporate support and training to ensure they achieve their goals

Technology

Our system works for you! With our innovative estimating and management systems, franchisees are able to launch their business fast. Our system provides: client & estimate tracking, professional proposals, appointment & job scheduling, employee management & tracking and billing & payroll.

Low cost entry

\$85,250 - \$115,500
